

FINISH OPTIONS

Depending on the fixture chosen, the following finishes are available:

POLISHED METAL

P/B	Polished Brass
P/CP	Polished Copper
P/N	Polished Nickel
PC	Polished Chrome
PA	Polished Aluminum

Base metal polished to a high lustre and buffed using jeweler's rouge. Finish is clear-coated to prevent oxidation. Base metal is the same as the finished surface metal, except for:

- Polished nickel finish is nickel electroplated over brass or bronze base metal.

EP/ST	Electro-polished Stainless Steel
--------------	----------------------------------

Stainless steel "polished" to a high lustre through an electro-chemical process which removes surface imperfections.

SATIN METAL

S/A	Satin Aluminum	S/B	Satin Brass
S/CP	Satin Copper*	S/N	Satin Nickel
S/ST	Satin Stainless Steel	SA/PA	Satin Aluminum with Polished Accents

Base metal finely satin buffed, then clear-coated to prevent oxidation. The base metal is the same as the finished surface metal, except for:

- Satin nickel finish is nickel electroplated over a satin brass or bronze base metal.

*For the exterior products only, satin copper is unacquered. It has no protective coating and will patina over time.

GOSSAMER METAL

G/A	Gossamer Aluminum
G/G	Gossamer Gold (brass)
G/ST	Gossamer Stainless Steel

Base metal finely satin buffed producing a subtle circular pattern that gently catches light and shadow, then clear-coated. Gossamer Gold is finished with a tinted topcoat.

ANTIQUED METAL

AB/A	Antiqued Boyd Aluminum
AB/B	Antiqued Boyd Brass
A/CP	Antiqued Copper
AB/N	Antiqued Boyd Nickel
BK/A	Blackened Aluminum
BK/BS	Blackened Brass

Base metal finely satined buffed, gently hand rubbed with a darkening agent. Clear lacquer or clear powder coat is applied to protect the finish.

PAINT

White	True white, satin finish
WG/P	White Gold Paint
YG/P	Yellow Gold Paint
T/W	White primer

ORMOLU SERIES

A/YBZ	Antiqued Yellow Bronze
