SYSTEMS

FOUR CHANDELIER SYSTEMS MADE FOR YOU

Modify our standard fixtures to fit your beautiful interiors.

Whether you grow vertically, in circumference, or need
a solution for a vaulted ceiling, we'd love to collaborate
with you on your project.

Made to order, by hand, in our shop in Colorado.

LILY SERIES

The Lily Series emulates the form of a Lily of the Valley that blooms with delicate white flowers. Each pendant features illuminated white opal glass 'flowers' that drop into your interiors.

The Lily Series lends itself to different configurations and modified versions to create installations for large spaces.

CALLISTO SERIES

The Callisto Series features hand-turned alabaster moons that cascade through your interiors.

We can create any size canopy and provide varying drop heights for large-volume solutions.

SPIRE LEAF SERIES

The Spire Leaf Pendants float into your interiors, with indirect LED illumination glowing within porcelain shades.

You tell us the size and height of the array and we will work with you to create configurations to suit your space.

OVALO CHAIN SERIES

The Ovalo Chain Series is jewelry for your interiors. It is a modular suspension system where you can change the number of 24" and 36" individual links and quantity of hanging stems to create a large statement piece.

We understand that every space has unique lighting requirements, and we want to work with you to create solutions to tailor our fixtures for your specific design needs.
